Lyubomir Kostadinov

C/C++ Software Developer

Sofia, Bulgaria | lubokostadinov13@gmail.com

PROFESSIONAL SUMMARY

C/C++ software developer with experience in game-engine systems, audio plugins, performance-aware, low-level programming and embedded systems. Currently developing Calibration, Performance and Diagnostics (CPD) software for ASML lithography machines and contributing to an audio plugin company Null Point Audio in my free time. Experience with Windows, Linux, macOS, graphics APIs, STM32, DSP and JUCE.
